HOW TO PLACE A VISIONART ORDER

1) Authorized partners must place all orders on our website, visionartgalleries.com.

2) It is the partner's responsibility to verify that all dimensions are correct. The online order form promts you for all the necessary dimensions to design a VisionArt.

3) Lead-times for orders from receipt of full payment in our office:
   - **Premiere Gallerie – up to 8 weeks**
   - **Décor Gallerie – 6 weeks**
   - **Expressions Gallerie – 4 weeks**
   - **allPopArt Gallerie – 4 to 6 weeks**
   - **QuickShip Gallerie – 7 business days**
   - **Custom art units and units with Gallerie 23 frames – 8 to 10 weeks**

4) Shipping rates, UPS Ground from California are calculated as follows:
   - $250 for shipments East of the Mississippi River
   - $200 for shipments between Colorado and the Mississippi River
   - $150 for shipments West of Colorado

   Note: TRIO Shipping rates are an additional $100.

5) Back Box will ship separately from VisionArt, even if it is part of the same order, and will double the shipping charge.

6) Prices subject to change without notice.

7) **All sales are final. No refunds.**

PREMIERE GALLERIE

Base unit includes a giclee fine art print, decorative frame, optional returns, mounting brackets, installation instructions, Elite Ultra Quiet (40-44db) direct dry contact motor which includes power supply and control wire. OPTIONAL UPGRADES (additional fees apply, see pages 9-13): Gallerie23 Frame Collection, Leather Frame Gallerie, Motors/Integration options, AV Mat, and Back Box with Cooling System.

ASIAN ART GALLERIE

Base unit includes a giclee fine art print, decorative frame, optional return, mounting brackets, installation instructions, Elite Ultra Quiet (40-44db) direct dry contact motor which includes power supply and control wire. OPTIONAL UPGRADES (additional fees apply, see pages 9-13): Gallerie23 Frame Collection, Leather Frame Gallerie, Motors/Integration options, AV Mat, and Back Box with Cooling System.

Flat Panel Size All sizes are the diagonal size of the viewing area and assume a 16:9 aspect ratio	**GOLD METAL LEAF** (With silk Mat and detailed black Metal Corner Brackets)	**22 K GOLD LEAF** (With silk Mat and detailed black Metal Corner Brackets)
To 43”	9,850	10,600
44” to 55”	10,050	10,850
56” to 65”	12,000	12,900
66” to 90”	Call for quote.	
**Non-Standard Size	275	

**Non-Standard Size - If the display/image is not 16:9 due to external speakers, or for any other reason, there will be an extra charge to reformat our existing art. An aspect ratio range between 1.60 and 1.85 is considered a “Standard Size” and will not incur the reformatting charge. To determine this number, take the outside width of the display divided by the outside height of the display. Example: 16÷9 = 1.77. You may be able to increase the height or width of your VisionArt to maintain the 16:9 aspect ratio; this will avoid the reformatting charge.

DÉCOR GALLERIE

Base unit includes a giclee fine art print, decorative frame, optional return, mounting brackets, installation instructions, FLEX (50-54db) motor which includes power supply, built in radio receiver and one hand held remote. OPTIONAL UPGRADES (additional fees apply, see pages 9-13): Gallerie23 Frame Collection, Leather Frame Gallerie, Motors/Integration options, AV Mat, and Back Box with Cooling System.

CUSTOM ART & SPECIFICATIONS

VisionArt offers the options of personal artwork and photographic images for "custom order" units. You may choose or commission works from a favorite artist or photographer, supply your own art or photograph, or request a painting that's in the public domain. In all cases, we'll work closely with you to ensure that the artwork you supply meets our technical requirements for a fine-art digital reproduction. Custom Art is available in our Premiere and Décor Galleries for an additional charge.

Premiere Gallerie: $450* for high-res digital files and $900 for artwork requiring scans.
Décor Gallerie: $600* for high-res digital files and $1200 for artwork requiring scans.

*Digital images must meet exact specifications. Images requiring retouching will incur an hourly retouching rate of $150.

Production specifications for custom order units are as follows:
1) We will digitally format the art and generate a color proof for approval, and produce the final giclee Fine Art print on canvas. Printing costs are included in the base price of the VisionArt unit.

2) Customers providing original artwork must also provide a signed and notarized authorization from the artist or photographer granting VisionArt the rights to copy the image and reproduce it as a giclee print for the purposes of covering a wall mounted flat panel display.

3) Most wall mounted flat screen TVs are made to the shape and proportions of a “widescreen” or "letterbox" movie screen with a 16 x 9 aspect ratio. Customers providing artwork for VisionArt custom order units must make sure that the artwork they provide will “crop” to the shape and proportion of the flat panel display it will cover.

4) For optimum reproduction quality, the size of the original artwork for custom order VisionArt units should be the same size as the flat panel displays it will cover. If the flat panel display to be covered is 39" wide, the original artwork should be 39" wide. VisionArt will not accept original artwork for reproduction that is any less than 30 inches wide.

5) Original artwork and photographic images must be delivered in one of three formats:

1) **Original Artwork** - Original artwork should be professionally crated, insured and transported - at the customer's expense. Original artwork will be scanned and returned to the customer along with a proof on canvas for customer approval - using the same crate it was delivered in - at the customer's expense.

2) **4 x 5 or 8 x 10 Transparency** (Additional charges may apply)- Customers wishing to send a photographic copy of original artwork must provide a 4 x 5 or 8 x 10 transparency that includes gray scale and color bars on it. The transparency will be scanned and returned to the customer along with a color proof on canvas for the customer's approval.

3) **Digital Image** - Digital images must be delivered on a compact disc accompanied by a color proof generated from the digital file. Files must be 150 megabytes at 350 DPI. The compact disc and the proof will be returned along with a VisionArt proof on canvas for the customer’s approval.

4) **Photographic Prints on Paper** - Photographic images can be delivered as a color or black and white print on paper. Prints must be at least 24” wide and cropped to fit the shape and proportion of the customer's flat panel display. The print must be sharp, crisp and clean. Color and contrast must be just what the customer expects to see in the VisionArt print. Photographic prints on paper will be returned to the customer along with a color proof on canvas for approval.

For any additional answers to your custom art questions, please contact VisionArt Customer Service at 800-432-4353 x28.

GALLERIE 23 FRAME COLLECTION

Ordering a Gallerie 23 Frame

The Gallerie 23 Frame Collection is recommended to be used with Premiere Gallerie units. The Premiere Gallerie has a welded, one piece, extruded aluminum sub frame that is capable of supporting a Gallerie 23 Frame. The prices in the Gallerie 23 Retail Price List are in addition to the Premiere Gallerie product being purchased.

The Design Process:

1) Know the diagonal size of the TV that is being covered.
2) The Gallerie 23 Frame Collection offers numerous distinctive profiles.
3) A variety of different finishes are available. Custom finishes are also available at an additional cost.
4) A wall mounted flat screen TV with a VisionArt looks better if the frame has a return to finish the frame to the wall. The return is the exact same finish as the frame.

Instructions for ordering

1) Select a Profile P50 – P74
2) Select a Finish F10 – F42

Instructions for ordering frames P80, P81, P82, P83

- Select a profile
- Select a Species of Wood
- Select a Finish F52, F53, F54

Profile P82 and P83

- When applicable you will need to choose a Metal Insert Finish M21, M22, M23

Returns

- When applicable you will need to select a size

Order Example: 43" Flat Screen: **Bonita** Profile, with **Mahogany** Wood, **Café** Finish, and **Metal Insert Finish, No Returns**.

Please see the following pages for the complete Gallerie 23 Collection pricing. (Profile, Part#, Retail Price)

Profile	Part #	Retail Price
Bonita	P83	2620.

VA-AVMS Audio Visual Matting Solution

The VA-AVMS is a matting solution that masks off the unused area between the inside of the decorative frame and the viewable area of the TV and also allows art to be any square/rectangle shape that is needed. This allows VisionArt to be shaped to meet the room's proportion instead of being built for a specific TV's dimensions. Ordering this product requires that the cutout dimensions are specified and approved. There may be up to 4 cutouts in a mat. Unless otherwise specified, all cut outs will be centered within the space available. All VA-AVMS orders will require a sign-off prior to ordering. The VA-AVMS is fabric - wrapped. We recommend a black Mat due to the fact that it will enhance the perceived brightness and contrast of the TV.

SKU	Item	MSRP
VA-AVMS	AV Mat - up to 65”	600.
VA-AVMS	AV Mat - 65” to 85”	925.

Lead-Time

All VisionArt units are custom made and require 7 business days for QuickShip, 4 weeks for Expressions, 6 weeks for Décor and 8 weeks for Premiere. The Gallerie 23 Frame Collection will add 3 weeks to an order. The Recessed Back Box requires 3 weeks and can be ordered separately. Manufacturing will not begin until payment in full is received.

Controls (Included)

Each VisionArt is shipped with standard controls for the unit unless otherwise specified. Motor/Integration options are available at an additional cost; see page 9.

Client Supplied Frames

The Premiere Gallerie may accept a client supplied frame. Client supplied frames should be professionally packaged, insured and transported to VisionArt - at the customer's expense.

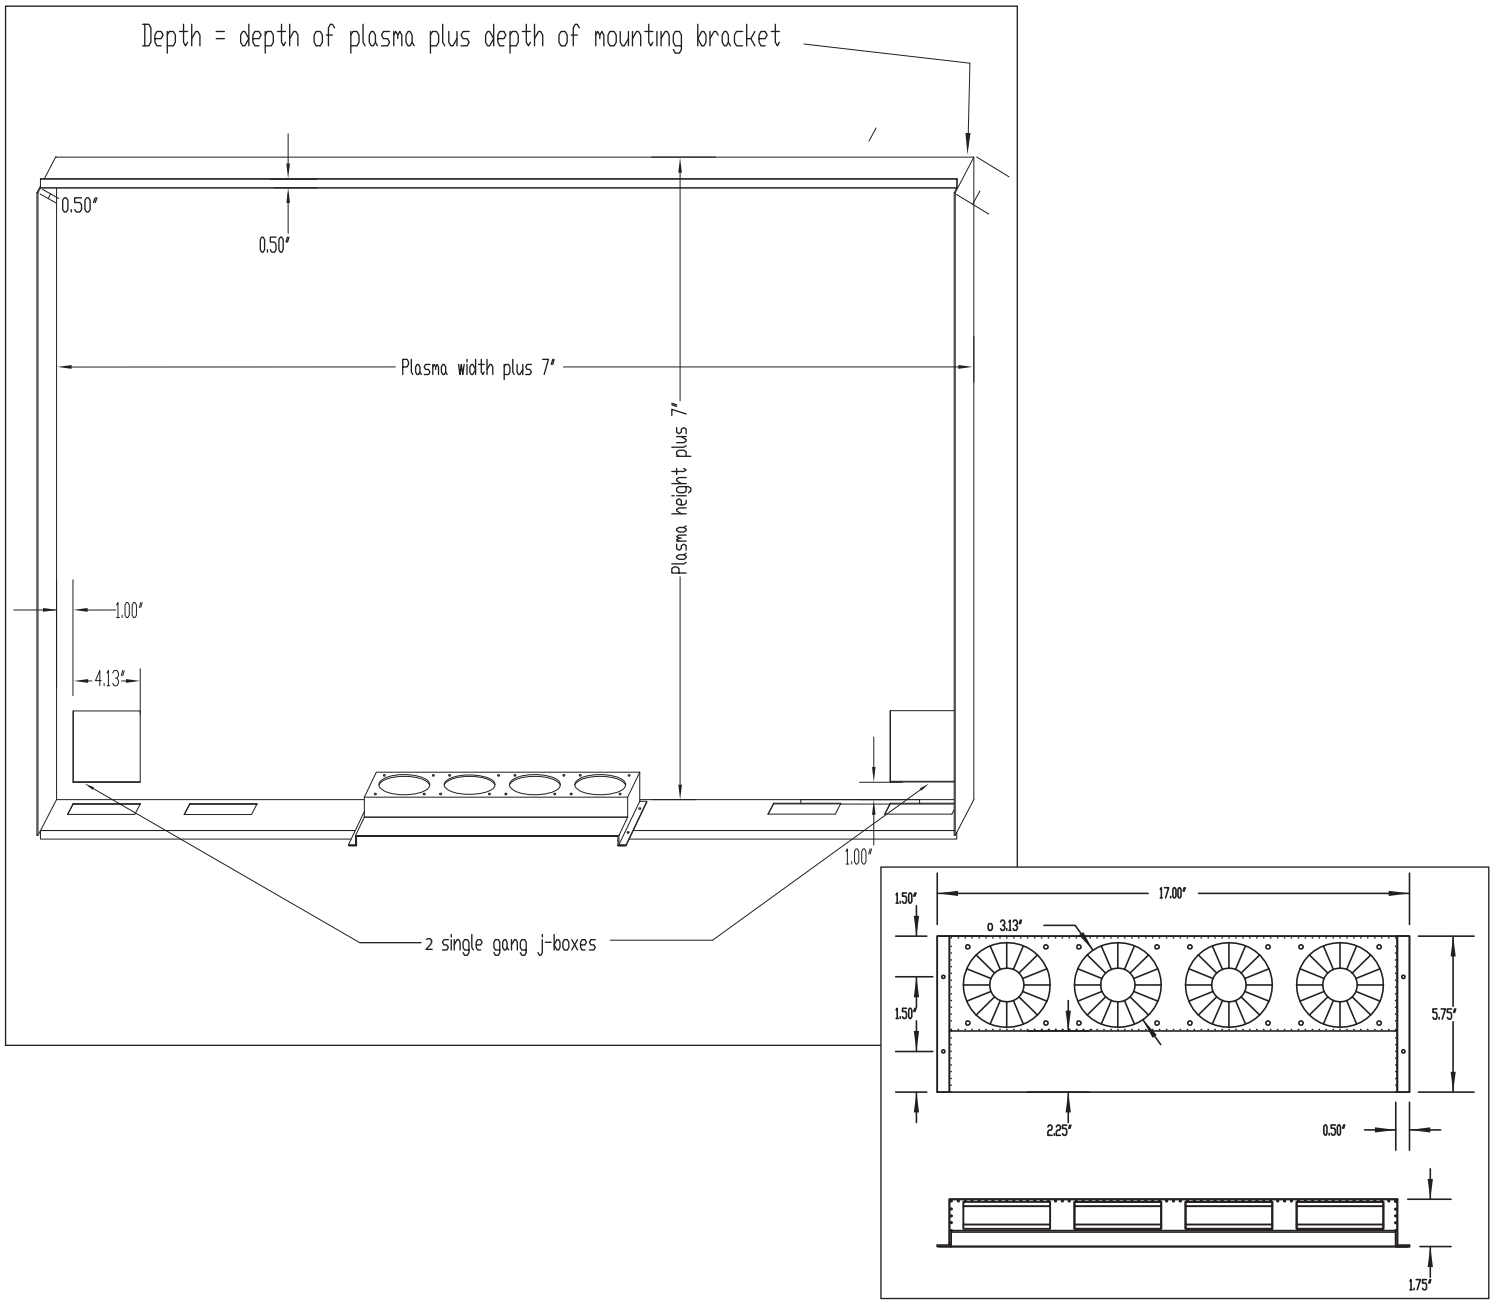
Size Ranges

Every VisionArt is custom made for your needs. The smallest VisionArt possible is 13” wide (not diagonally) and the largest image size we can print is 58” x 240”. An image larger than 66” diagonally is a custom unit and will require a custom quote. Any display smaller than 43” diagonally will be priced at “Under 43” pricing, and may incur a non-standard formatting fee if the aspect ratio is not 16:9. VisionArt is not limited to concealing display devices; it can be manufactured to conceal wall safes, cabinet speakers, equipment racks, etc.

BACK BOX WITH COOLING SYSTEM - CUSTOM RECESSED OPTION

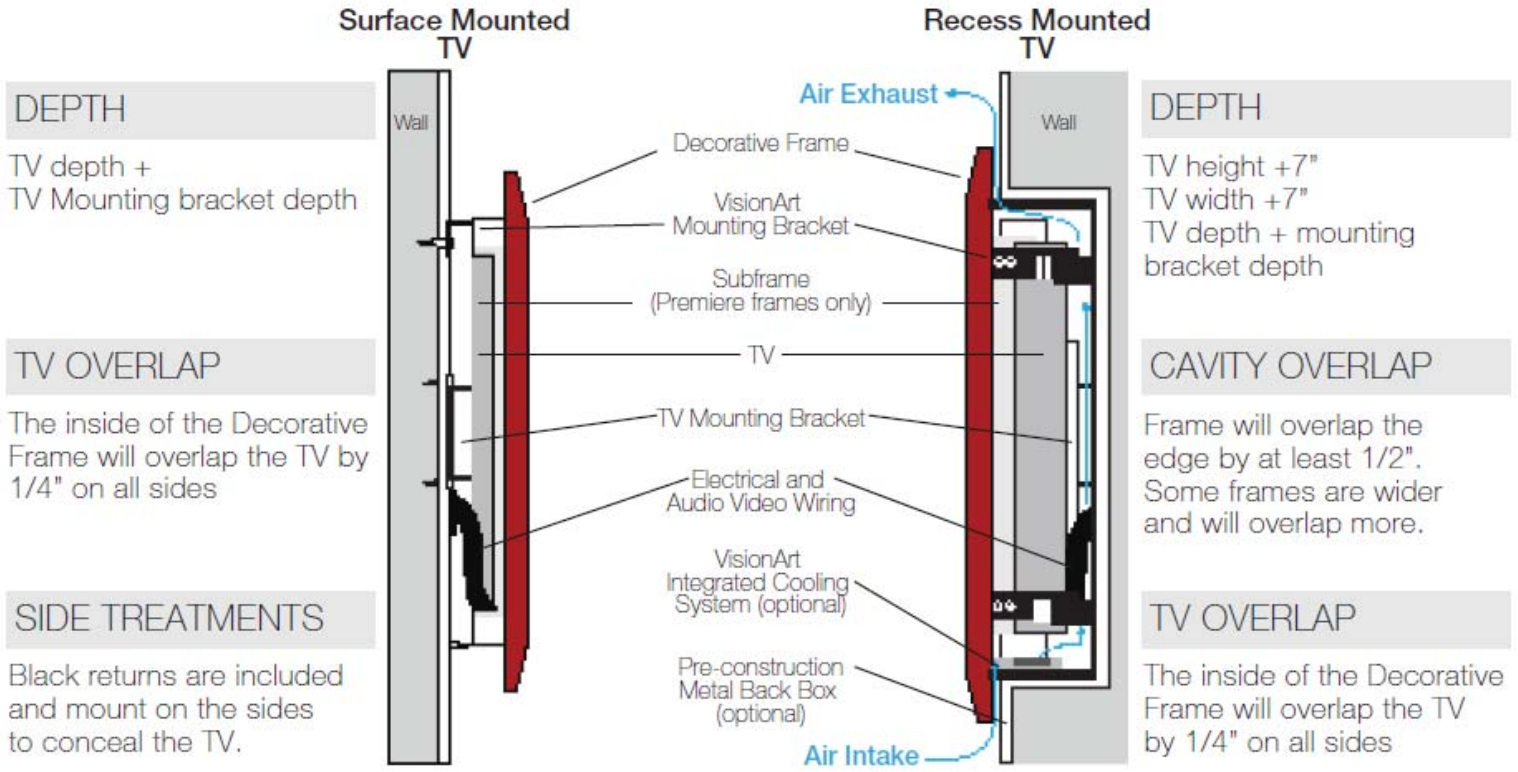
VisionArt offers an optional all metal BACK BOX that allows you to safely recess mount your monitor into the wall. Each BACK BOX is made specifically for your installation, and includes the VA-ICS (Integrated Cooling System). The VA-ICS has four slow speed, low turbulence fans that move 15 cubic feet of air per minute. The system includes a temperature sensor that will automatically turn the fans on at 90 degrees Fahrenheit. The VA-ICS requires that the VisionArt frame stand off the wall by at least ½" and uses this space to circulate air through the cavity. The VA-ICS includes a power supply, temperature sensor, and ducting. The fans are preinstalled in the back box.

Recessed Back Box	MSRP
Up to 43"	1,575.
44" to 55"	1,785.
56" to 65"	1,995.
66" to 90"	Call for Quote



DESIGNING THE CAVITY

The Back Box cavity can be designed by adding 7 inches to the outside height and width of the television for the inside dimension of the recess. The depth of the recess is determined by adding the depth of the display plus the depth of any mounting brackets. The Back Box is 16 gauge metal and is NOT structurally capable of supporting a display device.



Calculation Example:
1) Your TV measures: 40" w x 20" h x 2" d
2) Add 7" to the height and width: 47" w x 27" h
3) Determine Depth by adding the depth of the TV (2") and your mounting bracket (1.5"): 2" d + 1.5" = 3.5"
Measurements for your recessed cavity are: 47" w x 27" h x 3.5" d

VA-ICS INTEGRATED COOLING SYSTEM

The Integrated Cooling System may be purchased as a standalone product and can be installed in the cavity without the metal Back Box. The VA-ICS requires that the VisionArt frame stand off the wall by at least ½" and uses this space to circulate air through the cavity. The VA-ICS includes a power supply, temperature sensor, ducting, and the fans. The assembly is ready for installation and only requires 4 screws.

Cooling System	MSRP
VA-ICS	525.

AUDIO SOLUTIONS PACKAGE 1+2+3

1) The VisionArt Audio Solution 3.0 and 2.0 by TRIAD are speaker systems featuring fully engineered, sealed, braced enclosures and premium crossover and driver components that deliver articulate and extended bass, crystal clear treble and good sensitivity and power handling.

Power Handling:	**100 watts**
Impedence:	Normal Impedence 8 ohms
Sensitivity:	88 dB/1W/1m
Frequency Response:	54 Hz-20 kHz

SKU	Item	MSRP
VA-AUDIO2.0	2 Speakers in a box	4,785.
VA-AUDIO3.0	3 Speakers in a box	5,985.

AV MAT IS REQUIRED WHEN ORDERING AUDIO SOLUTIONS

2) The VA-AVMS is a matting solution that masks off the unused area between the inside of the decorative frame and the viewable area of the TV and also allows art to be any square or rectangle shape. This allows VisionArt to be shaped to meet the room's proportion instead of being built for a specific TV's dimensions.

Ordering this product requires that the cutout dimensions are specified and approved. There may be up to 4 cutouts in a mat. Unless otherwise specified, all cut outs will be centered within the space available. All VA-AVMS orders will require a sign-off prior to ordering.

The VA-AVMS is wrapped in transparent black acoustic speaker fabric and is included in the price of the Speakers. Its black color enhances the perceived brightness and contrast of the TV image.

AV Matting Solutions	MSRP
For all sizes	Included

BACKBOX IS REQUIRED WHEN ORDERING AUDIO SOLUTIONS

3) VisionArt offers a metal back box that includes the VA-ICS (Integrated Cooling System). The VA-ICS has four slow speeds, low turbulence fans that move 15 cubic feet of air per minute. The system includes a temperature sensor that will automatically turn the fans on at 90 degrees Fahrenheit.

Recessed Back Box	MSRP
For all sizes	Included

LIMITED WARRANTY

This is a LIMITED WARRANTY as defined by the U.S. Consumer Product Warranty and Federal Trade Commission Improvement Act.

WHAT IS COVERED UNDER THE TERMS OF THIS WARRANTY?

SERVICE LABOR: VisionArt will pay for service labor by an approved VisionArt service center when needed as a result of manufacturing defect for a period of one (1) year from the effective date of delivery to the end user.

PARTS: VisionArt will provide new or rebuilt replacement parts for the parts that fail due to defects in materials or workmanship for a period of one (1) year from the effective date of delivery to the end user. Such replacement parts are then subsequently warranted for the remaining portion (if any) of the original warranty period.

WHAT IS NOT COVERED UNDER THE TERMS OF THIS WARRANTY?

This warranty only covers failure due to defects in materials and workmanship that occur during normal use and does not cover normal maintenance. This warranty does not cover failure resulting from accident, misuse, abuse, neglect, mishandling, misapplication, faulty or improper installation or setup adjustments; improper maintenance, alteration, improper use of any input signal; damage due to lightning or power line surges, spikes and brownouts; damage that occurs during shipping or transit; or damage that is attributed to acts of God. VisionArt is not responsible for damage that occurs due to being improperly stored or unopened and or left in box for **2 or more weeks** after receipt of product. This includes creasing of fine art print. It is the reseller's and/or customer's responsibility to inspect units upon arrival. In the case of remote control units, damage resulting from leaking, old, damaged or improper batteries is also excluded from coverage under this warranty.

CAUTION: DAMAGE RESULTING DIRECTLY OR INDIRECTLY FROM IMPROPER INSTALLATION OR SETUP IS SPECIFICALLY EXCLUDED FROM COVERAGE UNDER THIS WARRANTY. IT IS IMPERATIVE THAT INSTALLATION AND SETUP WORK BE PERFORMED ONLY BY AN AUTHORIZED VISIONART PARTNER TO PROTECT YOUR RIGHTS UNDER THIS WARRANTY.

RIGHTS, LIMITS AND EXCLUSIONS:

VisionArt limits its obligations under any implied warranties under state laws to a period not to exceed the warranty period. There are no other expressed or implied warranties. VisionArt also excludes any obligation on its part for incidental or consequential damages related to the failure of this product to function properly.

EFFECTIVE WARRANTY DATE:

This warranty begins on the effective date of delivery. For your convenience, keep the original bill of sale as evidence of the delivery date.

TO OBTAIN SERVICE, CONTACT YOUR VISIONART PARTNER:

Repairs made under the terms of the Limited Warranty covering your VisionArt product will be performed at the location of the product, during usual working hours, providing location of product is within normal operating distance from a VisionArt Authorized Partner. If, solely in VisionArt judgment, location of product to be repaired is beyond normal operating distance of the closest VisionArt Authorized Partner, it is the customer's responsibility to arrange for prepaid shipment of the product for repair. These arrangements must be made through the selling VisionArt Partner. If this is not possible, contact VisionArt directly for a return authorization number and shipping instructions. VisionArt will return product "transportation freight collect" in the United States.

ADDITIONAL INFORMATION:

To locate the name and address of the nearest VisionArt Authorized Partner, or for additional information about this warranty, please call 866-432-4353, or visit our website: www.visionartgalleries.com

SHIPMENT INSPECTION

It is the Reseller and/or Customer's responsibility to inspect all orders upon delivery. Notification of any damage must be made to VisionArt within 48 hours of product receipt.
